

70TH ANNUAL MEETING

SEPTEMBER 25TH & 26TH, 2024

TRANSFUSION
MEDICINE
UPDATE
2024

COURSE DESCRIPTION

In accordance with the Michigan Association of Blood Banks (MABB) mission statement, the 70th annual meeting program consists of presentations on many diverse topics with a linked theme of promoting the highest standard of patient care for our respective patient populations. After completing this activity, participants will be able to utilize best practices in donor recruitment, blood bank management, and management of various transfusion medicine cases.

The target audience for this program is physicians, house officers, medical laboratory scientists, nurses, and other healthcare professionals.

COURSE TOPICS

- Rediscovering joy at work
- Blood bank management
- Understanding the blood donor market and donor motivation
- Major discoveries, regulation, and standardization in transfusion medicine
- Transfusion service quality improvement
- Integrating machine learning into blood bank management
- The path to a freeze-dried whole blood analogue
- Emergency release of red blood cells
- Interaction of transplant patients' RBC alloantibodies with donor allografts
- Whole blood transfusion in trauma
- Safety of RhD-positive transfusions for RhD-negative recipients
- Clinical cases: optimizing collections for cellular therapy products, using the Super Coombs test in diagnosing hemolytic anemia, therapeutic plasma exchange in a patient with diffuse alveolar hemorrhage and systemic lupus erythematosus, use of the Alloantibody Exchange in a patient without a known transfusion history
- Serologic cases: autologous and directed donations and transfusions, effects of low-titer group O whole blood on non-group O patients, ABO discrepancies in bone marrow transplantation
